## Three Main Categories of Symptoms

Dr. Fotuhi's goal to addressing and treating all of your concussion symptoms is the key factor for the success of our integrative and multi-disciplinary program.

## Concussion Recovery Program

- **Neurological Assessment** by Dr. Fotuhi
- **Neurocognitive Testing** – to establish your brain's strengths and weaknesses
- **Brain-Mapping (Q-EEG)** – to establish a full picture of your brain's pattern of electrical activity

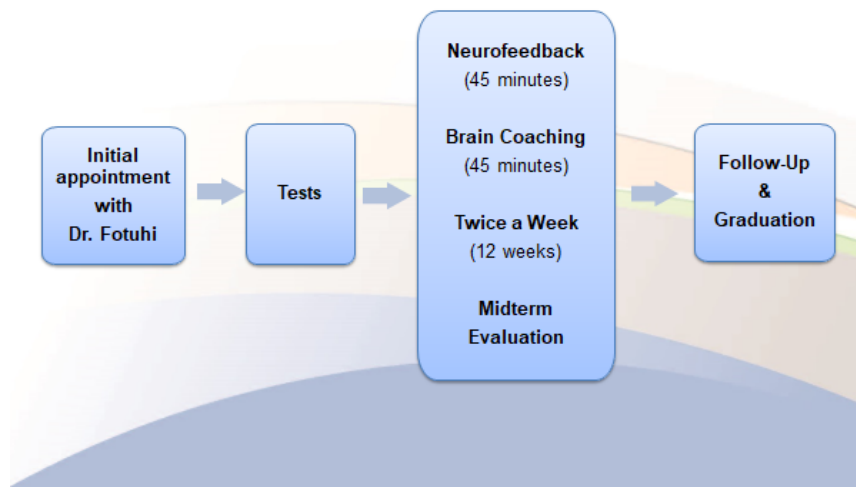

- **Brain Coaching** – We will help you improve your memory, processing speed, attention, sleep, diet, exercise, and organizational skills.

- **Neurofeedback** – We will use state-of-the-art EEG-based biofeedback protocols to help you become calm and focused.

Dr. Fotuhi will personally ensure that each patient receives the highest quality of care from all members of our multidisciplinary team. He is committed to ensure that you are 100% satisfied with your progress.

### Concussion Recovery Program: Twice Weekly Treatments, 12 Weeks
